

Demonstration of Proposed Features

Date	28 September 2026
Team ID	SWTID-2026-6259
Project Name	AI Study Buddy API
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S. No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Secure User Authentication	Allows students to register and log in securely using JWT authentication and encrypted passwords.	Implemented	Yes	Authentication and protected API access are demonstrated
2	Study Material Management	Allows authenticated students to upload and manage their study materials for AI processing.	Implemented	Yes	Study materials are uploaded and used as input for AI features.
3	AI Summary Generation	Generates concise and easy-to-understand summaries from uploaded study materials using Google Gemini AI.	Implemented	Yes	AI-generated summaries are demonstrated through the API.

4	AI Flashcard Generation	Automatically creates flashcards from study materials to support revision and active recall.	Implemented	Yes	Flashcards are generated from the uploaded learning content.
5	AI Quiz Generation	Generates multiple-choice questions from study materials to help students assess their understanding.	Implemented	Yes	AI-generated MCQ quizzes are demonstrated.
6	Personalized Study Plan	Generates personalized study schedules based on learning goals, available study time, and examination timeline.	Implemented	Yes	AI-generated study plans are demonstrated.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
